RA Brooks - CARTER CARB EVENT TALK (2).docx

Hi – Please use the attached talking points for Karl Brooks. I sent Congressman Clay's remarks earlier, not Karl's. I apologize for the confusion. Let me know if you have questions. Thanks! - HLT

Importance: High

Hi Shawna – this should complete Mathy's briefing book from R7. The following documents are attached:

- [REDACTED] RA Brooks' written response to the Missouri Coalition for the Environment
- [REDACTED] Weekly Briefing Report to RA Brooks
- [REDACTED] RA Brooks' talking points

I understand Chris Whitley has already sent you R7's press release. LaTonya Sanders has been the lead on this event; however, she has left the office for the day. Please contact me if you have any questions. Thanks to all of you for your help. – HLT

Hattie L. Thomas
Deputy Director
Office of Public Affairs
EPA Region 7

Climate Change

Springfield News Leader - Will coal plans hurt Missouri? - 7/15/13 - Missouri is home to two of the largest coal companies in the country, and coal-fired plants supply most of the state's electricity. So it's no wonder Missouri's coal interests — from Peabody Energy Corp. in St. Louis to City Utilities in Springfield — are on edge as the Obama administration prepares to roll out tough new standards aimed at sharply curbing carbon pollution. <http://www.news-leader.com/interactive/article/20130714/NEWS01/307140011/Will-coal-plans-hurt-Missouri->

Weldon Spring

1. Weldon Spring Summary

2. Weldon Spring Timeline

3. Below is a map of the Weldon Spring Site with both the DOE and Army sites shown. The disposal cell measure about 1.75 miles to the Missouri River from center and 1.54 miles to the river from the closest edge.
